CAREER COACH WORKSHOP

featuring the Knowdell™ Career Transition Process

Job search and career development practitioners are called upon to assist clients in making successful short-term job transitions and identify long-term career options. Often, these transitions are unwelcome and unplanned. To help clients become successful, we need to provide a simple but comprehensive framework, and special coaching skills to facilitate, guide and nudge clients to move from comfort to success. Participants will demonstrate competencies in using the Knowdell 4 Step Model supported by 5 Key Questions, the Career Development & Job Search Profile, and four Knowdell career assessment card sorts. They will practice enhanced coaching skills, and learn to help clients navigate the changing workplace. Current resources will be shared.
